1. Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier

Product name: RUBBERLAC

Product description: Elastomer bituminous solution with organic solvents

REACH registration number: Mixture (registration is not required according to REACH regulation, 1907/2006/EC)

1.2 Relevant identified uses of the substance or mixture and uses advised against

Intended use: Waterproofing and protection of external concrete surfaces. Anti-corrosive protection of metallic surfaces. Waterproofing of specific items such as angles, parapets. It must be used only for professional use.

1.3 Details of the supplier of the safety data sheet

BITUMIX S.A.

PRODUCTION OF BITUMINOUS MIXTURES

K. KARAMANLI 124, IONIA THESSALONIKIS

P.O.Box: 1715, 57008 IONIA THESSALONIKIS

TEL: (0030)2310 710017

FAX: (0030)2310 710016

e-mail: info@bitumix.gr

1.4 Emergency telephone number

National Chemical Emergency Centre (24h): +44 (0) 1235 239 670

2. Hazards identification

2.1 Classification of the substance or mixture

The product is classified as hazardous according to Regulation 1272/2008/EC (CLP) and its subsequent amendments. For that reason it is required a safety data sheet for the product that complies with the provisions of Regulation 1907/2006/EC and its subsequent amendments.

Classification according to Regulation 1272/2008 (CLP) and following amendments and adjustments

Hazard classification and indication:

Flam. Liq. 3  H226
Repr. 2  H361f
STOT RE 2  H373
Skin Irrit. 2  H315
STOT SE 3  H336i
Aquatic Chronic 3  H412

2.2 Label elements

Hazard labeling according to EC Regulation 1272/2008 (CLP) and subsequent amendments and supplements.

Hazard pictograms:

Signal words: Warning
Hazard statements:
H226: Flammable liquid and vapor.
H315: Causes skin irritation.
H336i: May cause drowsiness or dizziness in case of inhalation.
H361fdi: Suspected of damaging fertility or the unborn child in case of inhalation.
H373i: May cause damage to organs through prolonged or repeated exposure in case of inhalation.
H412: Harmful to aquatic life with long lasting effects.

Precautionary statements:
P210: Keep away from heat / sparks / open flames / hot surfaces. No smoking.
P261: Avoid breathing vapors.
P271: Use only outdoors or in a well-ventilated area.
P273: Avoid release to the environment.
P280: Wear protective gloves / protective clothing / eye protection / face protection.
P304+P352: IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing
P302+P352: IF ON SKIN: Wash with plenty of soap and water.
P370+P378: In case of fire: use CO2, foam or dry powder for extinction.

Contains: Toluene

2.3 Other hazards
Information not available

3. Composition/information on ingredients

3.1 Substances
The product is mixture

3.2 Mixtures
It contains the following hazardous substances:

<table>
<thead>
<tr>
<th>Ingredient name</th>
<th>Percent %</th>
<th>REACH registration number</th>
<th>CAS number</th>
<th>EC number</th>
<th>Classification 1272/2008 (CLP)</th>
</tr>
</thead>

</tr>
</tbody>
</table>

4. First aid measures

4.1 General information
After inhalation: Remove patient to fresh air and seek medical attention. In case of unconsciousness, place patient stably in side position for transportation.
After skin contact: Remove contaminated clothing. Wash skin with soap and water.
After eye contact: Wash immediately eyes with plenty of water for a long time keeping the eyelids open and seek medical attention.
After swallowing: Rinse mouth immediately and then drink plenty of water. Consult doctor immediately.

4.2 Most important symptoms and effects, both acute and delayed
No further relevant information available.

4.3 Indication of any immediate medical attention and special treatment needed
No further relevant information available.
## 5. Firefighting measures

### 5.1 Extinguishing media
- **Suitable:** CO₂, dry chemical powder, sand, foam
- **Unsuitable for safety reasons:** Water with full jet, water spray

### 5.2 Special hazards arising from the substance or mixture
The product is lighter than water and insoluble. It can be transferred and ignited in distance from initial source. In case of incomplete burning may be formed CO, H₂S, SOₓ and other harmful compounds.

### 5.3 Advice for fire-fighters
- **Special protective equipment:**
  - Fireproof suit with helmet (EN 469, 533, 1486) and self breathing apparatus (EN 137)

- **Additional information:**
  - Remove the product packaging and other flammable materials away from the fire and if it is required, cool the packaging’s outside with water. Contaminated water and residues from the fire are collected separately and disposed of in accordance with local regulation. It must not enter the sewage system.

## 6. Accidental release measures

### 6.1 Personal precautions, protective equipment and emergency procedures
Avoid contact with spilled material. Remove all the contaminated clothes. Use the appropriate means of body protection (see section 8). Don’t breathe vapours of product.

### 6.2 Environmental precautions
Avoid water and ground contamination. Do not allow to enter sewers and water surfaces.

### 6.3 Methods and material for containment and cleaning up
Limit the spread of the material forming protective barriers with sand or sawdust. Collect as much product as you can in a clean container for reuse (by preference) or dispose of as hazardous waste. Cover the rest product with some inert material or powder for disposal. In case of water contamination inform immediately the local authorities for the restriction of the damage. Dispose contaminated materials as hazardous waste according to item 13.

### 6.4 Reference to other sections
See Section 7 for information on safe handling. See Section 8 for information on personal protection equipment. See Section 13 for disposal information.

## 7. Handling and storage

### 7.1 Precautions for safe handling
Apply in places with very good ventilation. Don’t eat, drink or smoke while handling the material. Use appropriate means of body protection (gloves, overalls, shoes, mask). Keep away from heat and ignition sources. Apply all rules of personal hygiene after each use. Take precautionary measure against electrostatic discharges. Avoid leakage of the product into the environment.

### 7.2 Conditions for safe storage, including any incompatibilities
Store in a well ventilated shady place away from sources of heat, ignition and direct contact with sunlight. Keep containers properly sealed and the content away from non-compatible materials, see section 10.

### 7.3 Specific end use(s)
No further relevant information available.
8. Exposure controls/personal protection

8.1 Control parameters

<table>
<thead>
<tr>
<th>Ingredient name</th>
<th>ACGIH-TLV(3/2012) TWA</th>
<th>NIOSH REL (1/2013) TWA</th>
<th>NIOSH REL (1/2013) STEL</th>

</tr>
<tr>
<td>Bitumen fumes (&gt;120°C)</td>
<td>0,5mg/m^3</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

8.2 Exposure controls

**Personal protective equipment:**

**General protective and hygienic measures:**
Keep away from foodstuffs, beverages and feed. Wash hands and face before breaks and at the end of work.

**Respiratory protection:**
In case of brief exposure or low pollution use respiratory filter device. In case of intensive or longer exposure, use self-contained respiratory protective device (EN 140, 141).

**Protection of hands:**
Wear suitable gloves (EN 374). The glove material has to be impermeable and resistant to the product. Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation (nitrile rubber, chloroprene rubber, PVC). The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. For this reason the suitability of gloves should be checked before use.

**Eye protection:**
Wear safety glasses (EN 166).

**Body protection:**
Wear category II professional long-sleeved overalls and safety footwear (EN 340, 365, 466, 467). In case of release wear PVC apron (EN 345).

9.2 Other information
Content of V.O.C: Subcategory: Binding Primers.
Limit value V.O.C: 750gr/lt. Max value V.O.C: 400gr/lt

10. Stability and reactivity

10.1 Reactivity
There are no particular risks of reaction with other substances in normal conditions of storage and use.

10.2 Chemical stability
The product is stable in normal conditions of use and storage. It does not decompose when it is stored and is handled properly and is not polymerised.

10.3 Possibility of hazardous reactions
Under normal conditions of storage and use, hazardous reactions will not occur.

10.4 Conditions to avoid
Sources of ignition and heat. Electrostatic charges. Strong oxidizing substances, strong acids and bases.

10.5 Incompatible materials
Oxidising substances, acids and bases.

10.6 Hazardous decomposition products
In the event of thermal decomposition or fire, gases and vapours that are potentially dangerous to health may be released.

11. Toxicological information
This product may cause functional disorders or morphological mutations after repeated or prolonged exposure and is thus graded as dangerous.

</table>

Aspiration hazard
No classifications because the product has a viscosity greater than 20,5cSt at 40°C.

Potential acute health effects
Eye contact: May cause eye irritation.
Skin contact: May cause skin irritation.
Inhalation: May cause drowsiness or dizziness.
Ingestion: May cause serious problems in the airways and stomach.

Symptoms related to the physical, chemical and toxicological characteristics
Eye contact: Pain or irritation, redness.
Skin contact: Irritation, redness.
Inhalation: Headache, drowsiness, dizziness, nausea.
Ingestion: Nausea, puke.

Delayed and immediate effects and also chronic effects from short and long term exposure
Short term exposure:
Potential immediate effects: Not available.
Potential delayed effects: Not available.

Long term exposure:
Potential immediate effects: Not available.
Potential delayed effects: Not available.

Potential chronic health effects: Not available.

Conclusion/Summary
General: May cause damage to organs after prolonged or repeated exposure in case of inhalation
Carcinogenicity: No known significant effects or critical hazards.
Mutagenicity: No known significant effects or critical hazards.
Fertility effects: Suspected of damaging the unborn child or fertility in case of inhalation.
Developmental effects: No known significant effects or critical hazards.
Other information: No known significant effects or critical hazards.

12. Ecological information

The product is dangerous for the environment and for aquatic organisms. Floats in water. Evaporizes in 24 hours under normal conditions leaving the bitumen ingredient. Contamination of water with the product can cause mortality to aquatic organisms, algae, bacteria etc. In case of soil contamination the product remain on the soil surface and decomposed in present of oxygen

12.2 Persistence and degradability: Not available.
12.3 Bioaccumulative potential: Not available.
12.4 Mobility in soil: Not available.
12.5 Results of PBT and vPvB assessment: Not available.
12.6 Other adverse effects: Not available.

13. Disposal considerations

13.1 Waste treatment methods
Recovery and reuse of the product is preferred. If this is not possible, incinerate the material in suitable incineration plant in accordance with the law and the approval of local authorities. Product residues should be considered hazardous waste and must be treated according to current regulations. The same shall apply to the absorption materials accidental release of the product.

Uncleaned packaging:
The generation of waste should be avoided or minimized wherever possible. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible.

14. Transport information

These goods must be transported by vehicles authorized to the carriage of dangerous goods according to the provisions set out in the current edition of the Code of International Carriage of Dangerous Goods by Road (ADR) and in all the applicable national regulations. People loading and unloading dangerous goods must be trained on all the risks deriving from these substances and on all actions that must be taken in case of emergency situations.

Road and Rail transport ADR/RID

UN number: 1999
UN proper shipping name: Tars, liquid including road asphalt and oils, bitumen and cut backs
ADR/RID, class: 3 Flammable liquids
Packaging group: III
Environmental hazards: Yes
Special precautions for user: Not available.
Additional information: Label: 3, Danger code Kemler: 30, Tunnel restriction code: D/E

Maritime transport IMDG

UN number: 1999
UN proper shipping name: Tars, liquid including road asphalt and oils, bitumen and cut backs
IMDG class: 3 Flammable liquids
Packaging group: III
Environmental hazards: Yes, Marine pollutant
Special precautions for user: Not available.
Additional information: Label: 3, EMS number: F-E, S-E
Air transport ICAO και IATA

UN number: 1999
UN proper shipping name: Tars, liquid including road asphalt and oils, bitumen and cut backs
ICAO/IATA-class: 3 Flammable liquids
Packaging group: III
Environmental hazards: Yes
Special precautions for user: Not available.
Additional information: Label: 3, Special Instructions: A3, A72

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code: Not rated.

15. Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

Category Seveso: 7b

Restrictions relating to the product or contained substances pursuant to Annex XVII to EC Regulation 1907/2006:
Product: point 3-40, Contained substance: point 48 Toluene

Substances in Candidate List (Art. 59 REACH): None

Substances subject to authorization (Annex XIV REACH): None

Substances subject to exportation reporting pursuant to (EC) Reg. 689/2008: None

Substances subject to the Rotterdam Convention: None

Substances subject to the Stockholm Convention: None

Healthcare controls: Workers exposed to this chemical agent must not undergo health checks, provided that available risk-assessment data prove that the risks related to the workers' health and safety are modest and that the 98/24/EC directive is respected.

VOC Directive 2004/42/EK: Binding primer. VOC=400 gr/lt

15.2 Chemical safety assessment: No chemical safety assessment has been processed for the mixture and the substances it contains.
